

BIMAX® APE

Allyl phenyl ether
CAS No. 1746-13-0
EINECS No. 2171253

Applications

This material is a high purity monomer used in a variety of polymeric applications, as well as a building block for chemical syntheses.

Typical Properties

Purity, %	> 99
Moisture, %	< 0.10

Physical Properties

Appearance	yellow liquid
Molecular weight	134.2 g/mol
Flash Point	62°C
Boiling point	195°C
Density	0.978 g/ml
Refractive Index, °C	1.52

Packaging

5-gallon poly pails, containing 18 kg each
55-gallon poly drums, containing 200 kg each

Storage and Handling

Store at temperatures below 32°C, away from heat and ignition sources. Wear goggles and gloves. Eye and skin contact, as well as inhalation, should be avoided. If contact occurs, wash affected area immediately with cold water. Consult the Safety Data Sheet.

This information is presented for your consideration in the belief that it is accurate and reliable; however, Bimax makes no guarantees or warranty, either expressed or implied, of the accuracy or the completeness of this information. The information in this data sheet is designed only as a guidance for safe handling, storage and use of the substance. It is not a specification, nor does it guarantee any specific properties. All chemicals should be handled only by competent personnel, within a controlled environment. Individuals receiving this information are expected to use their own judgment in determining the relevancy for a particular circumstance. Accordingly, Bimax will not be responsible for damages of any kind resulting from the use of, or reliance upon, such information.
