

**METHYLTRIMETHOXYSILANE**

Safety Data Sheet SIM6560.0

Date of issue: 01/12/2015

Version: 1.0

**SECTION 1: Identification of the substance/mixture and of the company/undertaking****1.1. Product identifier**

|                 |                                                    |
|-----------------|----------------------------------------------------|
| Product form    | : Substance                                        |
| Physical state  | : Liquid                                           |
| Substance name  | : METHYLTRIMETHOXYSILANE                           |
| Product code    | : SIM6560.0                                        |
| Formula         | : C <sub>4</sub> H <sub>12</sub> O <sub>3</sub> Si |
| Synonyms        | : TRIMETHOXYMETHYLSILANE                           |
| Chemical family | : ORGANOMETHOXYSILANE                              |

**1.2. Relevant identified uses of the substance or mixture and uses advised against**

|                              |                                                                 |
|------------------------------|-----------------------------------------------------------------|
| Use of the substance/mixture | : Chemical intermediate<br>For research and industrial use only |
|------------------------------|-----------------------------------------------------------------|

**1.3. Details of the supplier of the safety data sheet****GELEST, INC.**11 East Steel Road  
Morrisville, PA 19067**USA**

T 215-547-1015 - F 215-547-2484 - (M-F): 8:00 AM - 5:30 PM EST

|                  |                                                                   |
|------------------|-------------------------------------------------------------------|
| Emergency number | : CHEMTREC: 1-800-424-9300 (USA); +1 703-527-3887 (International) |
|------------------|-------------------------------------------------------------------|

**SECTION 2: Hazards identification****2.1. Classification of the substance or mixture****Classification (GHS-US)**

Flam. Liq. 2 H225

Eye Irrit. 2A H319

Full text of H-phrases: see section 16

**2.2. Label elements****GHS-US labeling**

Hazard pictograms (GHS-US)

GHS02

GHS07

Signal word (GHS-US)

: Danger

Hazard statements (GHS-US)

: H225 - Highly flammable liquid and vapor  
H319 - Causes serious eye irritation

Precautionary statements (GHS-US)

: P280 - Wear protective gloves/protective clothing/eye protection/face protection  
P264 - Wash hands thoroughly after handling  
P210 - Keep away from heat, open flames, sparks. - No smoking  
P233 - Keep container tightly closed  
P240 - Ground/bond container and receiving equipment  
P241 - Use explosion-proof electrical equipment  
P242 - Use only non-sparking tools  
P243 - Take precautionary measures against static discharge  
P370+P378 - In case of fire: Use water spray or fog, foam, carbon dioxide, dry chemical to extinguish  
P303+P361+P353 - If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower  
P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing  
P337+P313 - If eye irritation persists: Get medical advice/attention  
P403+P235 - Keep in a cool place  
P501 - Dispose of contents/container to licensed waste disposal facility.**2.3. Other hazards**

No additional information available

# METHYLTRIMETHOXYSILANE

## Safety Data Sheet

### 2.4. Unknown acute toxicity (GHS-US)

No data available

## SECTION 3: Composition/information on ingredients

### 3.1. Substance

Substance type : Mono-constituent  
Name : METHYLTRIMETHOXYSILANE  
CAS No : 1185-55-3  
EC no : 214-685-0

| Name                   | Product identifier | %    | Classification (GHS-US)                                                                                                                                                                                   |

### 3.2. Mixture

Not applicable

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

First-aid measures general : Remove contaminated clothing and shoes. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible). If possible show this sheet; if not available show packaging or label.

First-aid measures after inhalation : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If you feel unwell, seek medical advice.

First-aid measures after skin contact : Wash with plenty of soap and water.

First-aid measures after eye contact : Immediately flush eyes thoroughly with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical advice/attention.

First-aid measures after ingestion : Never give anything by mouth to an unconscious person. Get medical advice/attention.

### 4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries after inhalation : May cause irritation to the respiratory tract.

Symptoms/injuries after skin contact : May cause skin irritation.

Symptoms/injuries after eye contact : Causes serious eye irritation.

Symptoms/injuries after ingestion : Oral toxicity is associated with methanol, the solvent and a hydrolysis product which causes nausea, vomiting, headache, visual effects including blindness.

Chronic symptoms : On contact with water this compound liberates methanol which is known to have a chronic effect on the central nervous system. Methanol may effect the central nervous system resulting in persistent or recurring headaches or impaired vision.

### 4.3. Indication of any immediate medical attention and special treatment needed

NOTE TO PHYSICIAN: This product reacts with water in the acid contents of the stomach to form methanol. The combination of visual disturbances, metabolic acidosis and formic acid in urine is evidence of methanol poisoning. The therapeutic intravenous administration of ethanol (10 mls/hour) allows methanol to be preferentially oxidized and reduces production of methanol metabolites. Acidosis must be treated with intravenous administration of sodium bicarbonate and methanol elimination may be increased by hemodialysis, as indicated. Treatment should be based on blood methanol levels and acid-base balance.

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

Suitable extinguishing media : Water spray. Water fog. Foam. Carbon dioxide. Dry chemical.

### 5.2. Special hazards arising from the substance or mixture

Fire hazard : Highly flammable liquid and vapor. Irritating fumes and organic acid vapors may develop when material is exposed to elevated temperatures or open flame.

### 5.3. Advice for firefighters

Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire.

Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protection. Avoid all eye and skin contact and do not breathe vapor and mist. Vapors extremely dangerous to eyes.

# METHYLTRIMETHOXYSILANE

## Safety Data Sheet

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

General measures : Remove ignition sources. Use special care to avoid static electric charges.

##### 6.1.1. For non-emergency personnel

Emergency procedures : Evacuate unnecessary personnel.

##### 6.1.2. For emergency responders

Protective equipment : Equip cleanup crew with proper protection.

#### 6.2. Environmental precautions

Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.

#### 6.3. Methods and material for containment and cleaning up

Methods for cleaning up : With adequate eye protection, absorb material and transfer to a suitable container for hydrolysis and disposal. Use only non-sparking tools.

#### 6.4. Reference to other sections

See Heading 8. Exposure controls and personal protection.

### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Additional hazards when processed : Handle empty containers with care because residual vapors are flammable.

Precautions for safe handling : Avoid all eye and skin contact and do not breathe vapor and mist. Containers must be properly grounded before beginning transfer. Provide good ventilation in process area to prevent accumulation of vapors. Take precautionary measures against static discharge. Use only non-sparking tools.

Hygiene measures : Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Wash contaminated clothing before reuse.

#### 7.2. Conditions for safe storage, including any incompatibilities

Technical measures : Proper grounding procedures to avoid static electricity should be followed. Ground/bond container and receiving equipment.

Storage conditions : Keep container tightly closed.

Incompatible materials : Oxidizing agent. Moisture. Water.

Storage area : Store in a well-ventilated place. Store away from heat.

#### 7.3. Specific end use(s)

No additional information available

### SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

| Methanol (67-56-1) |                                       |                       |
|--------------------|---------------------------------------|-----------------------|
| USA ACGIH          | ACGIH TWA (ppm)                       | 200 ppm               |
| USA ACGIH          | ACGIH STEL (ppm)                      | 250 ppm               |
| USA NIOSH          | NIOSH REL (TWA) (mg/m <sup>3</sup> )  | 260 mg/m <sup>3</sup> |
| USA NIOSH          | NIOSH REL (TWA) (ppm)                 | 200 ppm               |
| USA NIOSH          | NIOSH REL (STEL) (mg/m <sup>3</sup> ) | 325 mg/m <sup>3</sup> |
| USA NIOSH          | NIOSH REL (STEL) (ppm)                | 250 ppm               |
| USA OSHA           | OSHA PEL (TWA) (mg/m <sup>3</sup> )   | 260 mg/m <sup>3</sup> |
| USA OSHA           | OSHA PEL (TWA) (ppm)                  | 200 ppm               |
| USA IDLH           | US IDLH (ppm)                         | 6000 ppm              |

#### 8.2. Exposure controls

Appropriate engineering controls : Provide local exhaust or general room ventilation.

Personal protective equipment : Avoid all unnecessary exposure. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure.

Hand protection : Neoprene or nitrile rubber gloves.

Eye protection : Chemical goggles. Contact lenses should not be worn.

Skin and body protection : Wear suitable protective clothing.

Respiratory protection : Where exposure through inhalation may occur from use, respiratory protection equipment is recommended. NIOSH-certified organic vapor (black cartridge) respirator.

# METHYLTRIMETHOXYSILANE

## Safety Data Sheet

### SECTION 9: Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

|                                             |                                          |
|---------------------------------------------|------------------------------------------|
| Physical state                              | : Liquid                                 |
| Appearance                                  | : Clear liquid.                          |
| Molecular mass                              | : 136.22 g/mol                           |
| Color                                       | : Colorless.                             |
| Odor                                        | : Characteristic.                        |
| Odor threshold                              | : No data available                      |
| Refractive index                            | : 1.3696                                 |
| pH                                          | : No data available                      |
| Relative evaporation rate (butyl acetate=1) | : < 1                                    |
| Melting point                               | : -78 °C                                 |
| Freezing point                              | : No data available                      |
| Boiling point                               | : 102 - 103 °C                           |
| Flash point                                 | : 8 °C                                   |
| Auto-ignition temperature                   | : 255 °C                                 |
| Decomposition temperature                   | : No data available                      |
| Flammability (solid, gas)                   | : Highly flammable liquid and vapor      |
| Vapor pressure                              | : No data available                      |
| Relative vapor density at 20 °C             | : > 1                                    |
| Relative density                            | : 0.955                                  |
| VOC content                                 | : 100 %                                  |
| Solubility                                  | : Insoluble in water. Reacts with water. |
| Log Pow                                     | : No data available                      |
| Log Kow                                     | : No data available                      |
| Viscosity, kinematic                        | : 0.5 cSt                                |
| Viscosity, dynamic                          | : No data available                      |
| Explosive properties                        | : No data available                      |
| Oxidizing properties                        | : No data available                      |
| Explosive limits                            | : 1.5 - 10.4 vol %                       |

#### 9.2. Other information

No additional information available

### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

No additional information available

#### 10.2. Chemical stability

Stable.

#### 10.3. Possibility of hazardous reactions

Material decomposes slowly in contact with moist air or with water liberating methanol.

#### 10.4. Conditions to avoid

Heat. Sparks. Open flame.

#### 10.5. Incompatible materials

Oxidizing agent. Moisture. Water.

#### 10.6. Hazardous decomposition products

Methanol. Organic acid vapors. Silicon dioxide.

### SECTION 11: Toxicological information

#### 11.1. Information on toxicological effects

Acute toxicity : Not classified

| Methanol (67-56-1)        |                                |
|---------------------------|--------------------------------|
| LD50 oral rat             | 6200 mg/kg                     |
| LD50 dermal rabbit        | 20 g/kg                        |
| LC50 inhalation rat (ppm) | 22500 ppm (Exposure time: 8 h) |
| ATE US (oral)             | 100.000 mg/kg body weight      |
| ATE US (dermal)           | 300.000 mg/kg body weight      |

| Skin corrosion/irritation                          | : Not classified                                                                                                                                                                                                                                  |
| Serious eye damage/irritation                      | : Causes serious eye irritation.                                                                                                                                                                                                                  |
| Respiratory or skin sensitization                  | : Not classified                                                                                                                                                                                                                                  |
| Germ cell mutagenicity                             | : Not classified                                                                                                                                                                                                                                  |
| Carcinogenicity                                    | : Not classified                                                                                                                                                                                                                                  |
| Reproductive toxicity                              | : Not classified                                                                                                                                                                                                                                  |
| Specific target organ toxicity (single exposure)   | : Not classified                                                                                                                                                                                                                                  |
| Specific target organ toxicity (repeated exposure) | : Not classified                                                                                                                                                                                                                                  |
| Aspiration hazard                                  | : Not classified                                                                                                                                                                                                                                  |
| Symptoms/injuries after inhalation                 | : May cause irritation to the respiratory tract.                                                                                                                                                                                                  |
| Symptoms/injuries after skin contact               | : May cause skin irritation.                                                                                                                                                                                                                      |
| Symptoms/injuries after eye contact                | : Causes serious eye irritation.                                                                                                                                                                                                                  |
| Symptoms/injuries after ingestion                  | : Oral toxicity is associated with methanol, the solvent and a hydrolysis product which causes nausea, vomiting, headache, visual effects including blindness.                                                                                    |
| Chronic symptoms                                   | : On contact with water this compound liberates methanol which is known to have a chronic effect on the central nervous system. Methanol may effect the central nervous system resulting in persistent or recurring headaches or impaired vision. |

## SECTION 12: Ecological information

### 12.1. Toxicity

| Methanol (67-56-1) |                                                                                |
|--------------------|--------------------------------------------------------------------------------|
| LC50 fish 1        | 28200 mg/l (Exposure time: 96 h - Species: Pimephales promelas [flow-through]) |
| LC50 fish 2        | > 100 mg/l (Exposure time: 96 h - Species: Pimephales promelas [static])       |

### 12.2. Persistence and degradability

No additional information available

### 12.3. Bioaccumulative potential

| Methanol (67-56-1) |       |
|--------------------|-------|
| BCF fish 1         | < 10  |
| Log Pow            | -0.77 |

### 12.4. Mobility in soil

No additional information available

### 12.5. Other adverse effects

|                              |                                                      |
|------------------------------|------------------------------------------------------|
| Effect on ozone layer        | : No additional information available                |
| Effect on the global warming | : No known ecological damage caused by this product. |

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

|                                |                                                                                                                                              |
|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| Waste disposal recommendations | : Dispose in a safe manner in accordance with local/national regulations. Dispose of contents/container to licensed waste disposal facility. |
| Additional information         | : Handle empty containers with care because residual vapors are flammable.                                                                   |
| Ecology - waste materials      | : Avoid release to the environment.                                                                                                          |

## SECTION 14: Transport information

### 14.1. UN number

|             |        |
|-------------|--------|
| UN-No.(DOT) | : 1993 |
| DOT NA no.  | UN1993 |

### 14.2. UN proper shipping name

|                                                   |                                                                 |
|---------------------------------------------------|-----------------------------------------------------------------|
| Proper Shipping Name (DOT)                        | : Flammable liquids, n.o.s.<br>(METHYLTRIMETHOXYSILANE)         |
| Department of Transportation (DOT) Hazard Classes | : 3 - Class 3 - Flammable and combustible liquid 49 CFR 173.120 |

# METHYLTRIMETHOXYSILANE

## Safety Data Sheet

Hazard labels (DOT) : 3 - Flammable liquid

DOT Symbols : G - Identifies PSN requiring a technical name  
Packing group (DOT) : II - Medium Danger  
DOT Packaging Exceptions (49 CFR 173.xxx) : 150  
DOT Packaging Non Bulk (49 CFR 173.xxx) : 202  
DOT Packaging Bulk (49 CFR 173.xxx) : 242

### 14.3. Additional information

Other information : No supplementary information available.

### Transport by sea

DOT Vessel Stowage Location : B - (i) The material may be stowed "on deck" or "under deck" on a cargo vessel and on a passenger vessel carrying a number of passengers limited to not more than the larger of 25 passengers, or one passenger per each 3 m of overall vessel length; and (ii) "On deck only" on passenger vessels in which the number of passengers specified in paragraph (k)(2)(i) of this section is exceeded.

### Air transport

DOT Quantity Limitations Passenger aircraft/rail : 5 L  
(49 CFR 173.27)  
DOT Quantity Limitations Cargo aircraft only (49 : 60 L  
CFR 175.75)

## SECTION 15: Regulatory information

### 15.1. US Federal regulations

#### Methanol (67-56-1)

Listed on the United States TSCA (Toxic Substances Control Act) inventory  
Listed on United States SARA Section 313

|                                       |       |
|---------------------------------------|-------|
| SARA Section 313 - Emission Reporting | 1.0 % |
|---------------------------------------|-------|

#### Methyltrimethoxysilane (1185-55-3)

Listed on the United States TSCA (Toxic Substances Control Act) inventory

### 15.2. International regulations

#### Methanol (67-56-1)

Listed on the AICS (Australian Inventory of Chemical Substances)  
Listed on the Canadian DSL (Domestic Substances List)  
Listed on IECSC (Inventory of Existing Chemical Substances Produced or Imported in China)  
Listed on the EEC inventory EINECS (European Inventory of Existing Commercial Chemical Substances)  
Listed on the Japanese ENCS (Existing & New Chemical Substances) inventory  
Listed on the Korean ECL (Existing Chemicals List)  
Listed on NZIoC (New Zealand Inventory of Chemicals)  
Listed on PICCS (Philippines Inventory of Chemicals and Chemical Substances)  
Japanese Poisonous and Deleterious Substances Control Law  
Listed on the Canadian IDL (Ingredient Disclosure List)

#### Methyltrimethoxysilane (1185-55-3)

Listed on the AICS (Australian Inventory of Chemical Substances)  
Listed on the Canadian DSL (Domestic Substances List)  
Listed on IECSC (Inventory of Existing Chemical Substances Produced or Imported in China)  
Listed on the EEC inventory EINECS (European Inventory of Existing Commercial Chemical Substances)  
Listed on the Japanese ENCS (Existing & New Chemical Substances) inventory  
Listed on the Korean ECL (Existing Chemicals List)  
Listed on NZIoC (New Zealand Inventory of Chemicals)  
Listed on PICCS (Philippines Inventory of Chemicals and Chemical Substances)  
Listed on the Canadian IDL (Ingredient Disclosure List)

### 15.3. US State regulations

#### METHYLTRIMETHOXYSILANE(1185-55-3)

|                                                             |    |
|-------------------------------------------------------------|----|
| U.S. - California - Proposition 65 - Carcinogens List       | No |
| U.S. - California - Proposition 65 - Developmental Toxicity | No |
| U.S. - California - Proposition 65 - Reproductive           | No |

# METHYLTRIMETHOXYSILANE

## Safety Data Sheet

| METHYLTRIMETHOXYSILANE(1185-55-3)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                             |                                                                     |                                                                   |                                   |

# METHYLTRIMETHOXYSILANE

## Safety Data Sheet

### Methanol (67-56-1)

U.S. - South Carolina - Toxic Air Pollutants - Maximum Allowable Concentrations  
U.S. - South Carolina - Toxic Air Pollutants - Pollutant Categories  
U.S. - Tennessee - Occupational Exposure Limits - Skin Designations  
U.S. - Tennessee - Occupational Exposure Limits - STELs  
U.S. - Tennessee - Occupational Exposure Limits - TWAs  
U.S. - Texas - Effects Screening Levels - Long Term  
U.S. - Texas - Effects Screening Levels - Short Term  
U.S. - Vermont - Permissible Exposure Limits - Skin Designations  
U.S. - Vermont - Permissible Exposure Limits - STELs  
U.S. - Vermont - Permissible Exposure Limits - TWAs  
U.S. - Washington - Dangerous Waste - Discarded Chemical Products List  
U.S. - Washington - Permissible Exposure Limits - Skin Designations  
U.S. - Washington - Permissible Exposure Limits - STELs  
U.S. - Washington - Permissible Exposure Limits - TWAs

### Methyltrimethoxysilane (1185-55-3)

U.S. - Texas - Effects Screening Levels - Long Term  
U.S. - Texas - Effects Screening Levels - Short Term

## SECTION 16: Other information

### Abbreviations and acronyms

: Abbreviations: ND: Not Determined, No Data; NA: Not Applicable; LD: Lethal Dose; LC: Lethal Concentration; ATE: Acute Toxicity Estimates; H: hour; °: °C unless otherwise stated; mm: millimeters Hg, torr; PEL: permissible exposure level; TWA: time weighted average; TLV: threshold limit value; TG: Test Guideline; NIOSH: National Institute for Occupational Safety and Health; IARC: International Agency for Research on Cancer; NTP: National Toxicology Program; HMIS: Hazardous Material Information System; CAS No.: Chemical Abstract Service Registration Number; EC No.: European Commission Registration Number; EC Index No.: European Commission Index Number; OECD: The Organisation for Economic Co-operation and Development.

|                                  |                                                             |
|----------------------------------|-------------------------------------------------------------|
| Acute Tox. 3 (Dermal)            | Acute toxicity (dermal) Category 3                          |
| Acute Tox. 3 (Inhalation:vapour) | Acute toxicity (inhalation:vapor) Category 3                |
| Acute Tox. 3 (Oral)              | Acute toxicity (oral) Category 3                            |
| Eye Dam. 1                       | Serious eye damage/eye irritation Category 1                |
| Eye Irrit. 2A                    | Serious eye damage/eye irritation Category 2A               |
| Flam. Liq. 2                     | Flammable liquids Category 2                                |
| Skin Irrit. 2                    | Skin corrosion/irritation Category 2                        |
| STOT SE 1                        | Specific target organ toxicity (single exposure) Category 1 |
| STOT SE 3                        | Specific target organ toxicity (single exposure) Category 3 |
| H225                             | Highly flammable liquid and vapor                           |
| H301                             | Toxic if swallowed                                          |
| H311                             | Toxic in contact with skin                                  |
| H315                             | Causes skin irritation                                      |
| H318                             | Causes serious eye damage                                   |
| H319                             | Causes serious eye irritation                               |
| H331                             | Toxic if inhaled                                            |
| H336                             | May cause drowsiness or dizziness                           |
| H370                             | Causes damage to organs                                     |

### HMIS III Rating

Health : 3 Serious Hazard - Major injury likely unless prompt action is taken and medical treatment is given  
Flammability : 4 Severe Hazard  
Physical : 1 Slight Hazard

Prepared by safety and environmental affairs.

Date of issue: 01/12/2015 Version: 1.0

SDS US (GHS HazCom 2012) - Custom

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

# METHYLTRIMETHOXYSILANE

## Safety Data Sheet

*The information contained in this document has been gathered from reference materials and/or Gelest, Inc. test data and is to the best knowledge and belief of Gelest, Inc. accurate and reliable. Such information is offered solely for your consideration, investigation and verification. It is not suggested or guaranteed that the hazard precautions or procedures described are the only ones which exist. Gelest, Inc. makes no warranties, express or implied, with respect to the use of such information and assumes no responsibility therefore. Information on this safety data sheet is not intended to constitute a basis for product specifications.*
